How good are your attention skills? Can you Spot The Difference between these two pictures?

Hint: There are 8 differences!
Have your little ones enjoyed watching the safety clip? Now it’s time for them to prove their hero skills by completing the following tasks:

Can you recall what Sarah & James discussed in the video? What object can be dangerous and why - A, B or C?

A. **Trains** - they are very fast and often you don’t hear them arrive.

B. **Irons** - they are very heavy and stay hot for a long time.

C. **Oven Top** - they get very hot and should never be used without a parent.
